

# AURORA™ SERIES

The RF Solutions Company

## Standard and Custom RF Generators

RF Generators from 2 MHz to 60 MHz, and power levels from 100W to 5kW, with frequency tuning, pulsing and an active front panel

The Aurora series use the latest LDMOS FET technology to reliably operate into the extreme dynamic loads found in semiconductor and industrial coatings applications.

With a broad power and frequency range, the Aurora series allows the user to stay within a single platform for all of your requirements.

QEI also offers the Aurora in custom packaging for 'on-tool' mounting. Ask what we can do!
